

Top Tips for Reach4Reality car journeys during Covid-19

If you need to travel in the car of a member of R4R staff or volunteer for your 1:1 sessions we would ask you to read and abide by these top tips to keep both you and our staff safe (these are in addition to our general ones for 1:1s):

- The member of staff will have cleaned any surfaces you are likely to touch before you get in their car.
- The staff member will open and close doors for you.
- The staff member will open and close windows for you.
- Please put on your face covering before you get into the car.
- Please sit in the rear passenger side of the car.
- Once you have put on your seat belt, please try not to touch anything around you.
- If you sneeze or need to use a tissue whilst on the car, please take one from the box provided and put it in the small black bag, also provided. When you return home, please take this bag with you and dispose of at home.
